ASHLEY THADICKAL

FRONT-END DEVELOPER

PROFILE

A front-end web developer with 10+ years of progressive experience applying analytical thinking and creative problem-solving skills to manage client expectations in fast-paced environments. I have a love for continuous learning and look forward to collaborating with an experienced team to apply my tech stack of React, JavaScript (ES6+), HTML5, and CSS3 (SASS) to solve problems and to bring ideas to life by way of accessible, user-friendly, and responsive code.

SKILLS

Tech Stack

Interpersonal Skills

Attention to Detail • Problem-Solving • Analytical Thinking • Communication • Paired Programming • Project Scope Management • Team-player

SELECTED PROJECTS

RoboTrivia

React | API | HTML | SASS | Firebase [LIVE](#) | [REPO](#)
Trivia quiz app that utilizes the Open Trivia API to display questions to the user based on their selections. Scores can be submitted to firebase and at the end of the quiz, the top three players are displayed. Site is responsive and accessible for all users.

A Look at Space: Photos from NASA

React | API | HTML | SASS [LIVE](#) | [REPO](#)
React project that takes user input and fetches images based on user search query from NASA's API. Images are displayed on the screen and users are able to like/unlike the images. Site is responsive and accessible for all users.

Park Weather App

JavaScript | API | HTML | SASS [LIVE](#) | [REPO](#)
Paired programming project that stored user input and fetched data from the Open Weather Map API to provide up-to-date weather information to the user. Site is responsive and accessible for all users.

CAREER SUMMARY
