HTML

RESTful APIs

Firebase

Web Accessibility

Responsive Design

Git/GitHub

Attention to Detail

Problem-solving

Analytical Thinking

Effective Communication

Paired Programming

Project Scope Management

Team-player

PROFILE

- A front-end web developer with 10+ years of progressive experience applying analytical thinking and creative problem-solving skills to manage client expectations in fast-paced environments
- I have a love for continuous learning and look forward to collaborating with an experienced team to apply my tech stack of React.js, JavaScript (ES6+), jQuery, HTML5, CSS3, and SASS to solve problems and bring ideas to life by way of accessible, user-friendly code

SELECTED PROJECTS

RoboTrivia

React | API | SASS | Firebase

LIVE | REPO

Trivia quiz app that utilizes the Open Trivia API to display questions to the user based on their selections. Scores can be submitted to Firebase and at the end of the quiz, the top 3 players are displayed.

Flip It and Reverse It

React | API | SASS | Firebase

LIVE | REPO

App used to create your own backronym (an acronym after the fact)! Users can enter a search word and be presented with an option. Users have the ability to save results, try again, and view previously saved results.

Park Weather App

JavaScript | API | HTML | SASS |

LIVE | REPO

Paired programming project that stored user input and fetched data from the Open Weather Map API to provide up-to-date weather information to the user.
