ASHLEY THADICKAL

FRONT-END DEVELOPER

PROFILE

I am a front-end web developer with over ten years of experience applying analytical thinking and creative problem-solving skills to manage client expectations in fast-paced environments. I have a love for continuous learning and look forward to collaborating with an experienced team to apply my experience in HTML5, SCSS, JavaScript, React, and API Integrations. I am excited to utilize new tools to solve problems and to bring ideas to life by way of accessible, user-friendly, and responsive code.

SKILLS

Tech Stack

HTML5	SASS	CSS3	iTerm
JavaScript	RESTful APIs	React	Firebase
Web Accessibility	Responsive Design	Git/GitHub	

Interpersonal Skills

Attention to Detail • Problem-Solving • Analytical Thinking • Communication • Paired Programming• Project Scope Management • Team-player

Intro to JavaScript

Juno College of Technology   2021

Intro to Web Development

Juno College of Technology   2021

Project Management Course

Conestoga College   2020

Paralegal Diploma with High Honours

Sheridan College   2008-2010

SELECTED PROJECTS

RoboTrivia

React | API | HTML | SASS | Firebase   LIVE | REPO

A current work in progress: A trivia quiz app that utilizes a trivia API to display questions to the user based on their selections. Scores can be submitted to firebase and at the end of the quiz, the top three players are displayed.

A Look at Space: Photos from NASA

React | API | HTML | SASS   LIVE | REPO

React project that takes user input to fetch images based on their search query from NASA's image API. Images are displayed on the screen and users are able to like/unlike the images. Site is responsive and accessible for all users.

Park Weather App

JavaScript | API | HTML | SASS   LIVE | REPO

Paired programming project that stored user input and fetched data from a weather API to provide up-to-date weather information to the user. Site is responsive and accessible for all users.

CAREER SUMMARY
